LETTER OF TRANSMITTAL

---

Harrisburg, Pa., *December 15, 1930.*

Hon. JAMES F. WOODWARD,  
Secretary of Internal Affairs.

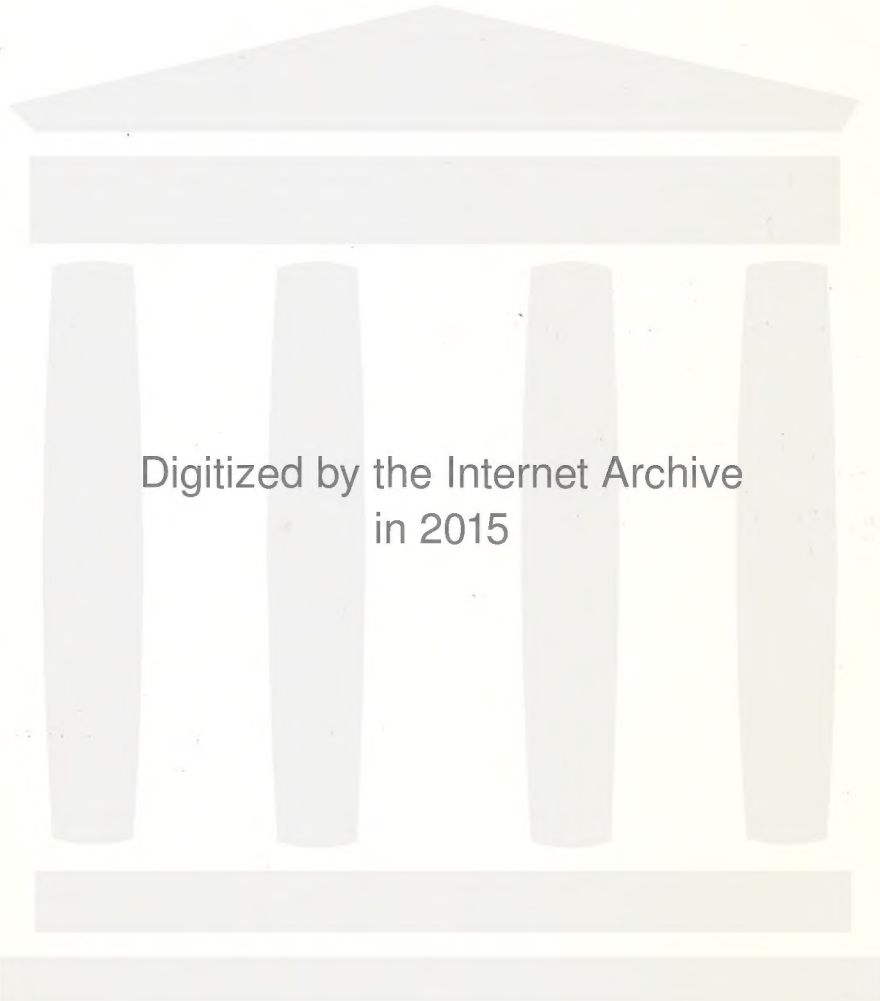

Sir:—

In compliance with the duties of my office, I transmit herewith the 57th Annual Report of the Bureau of Statistics, being a compilation of the statistics for the year 1929 on Productive Industries and Public Utilities, with a section devoted to Miscellaneous Statistics.

Respectfully submitted,

HENRY W. VAN PELT,  
*Director, Bureau of Statistics.*

Foreword by Philip H. Dewey, Secretary of Internal Affairs .....	1
Composite Exhibit of Productive Industries and Public Service Companies in Pennsylvania, Years 1928 and 1929 .....	3
<b>PART I—INDUSTRIAL</b>	
State, County and Municipal Comparisons for 1928 and 1929—Establishments Reporting, Kinds of Industry, Individuals, Partnerships, Corporations, Average Number Employes, Total Salaried and Wage Employes, Total Wages and Salaries, Capital Invested, Value of Products .....	5-118
State Summary, 1928 and 1929 .....	7
County Comparisons, 1928 and 1929 .....	8-74
Municipal Comparisons, 1928 and 1929 .....	75-118
<b>PART II—INDUSTRIAL</b>	
Summary by Class of Industries Reporting for 1929 .....	119-123
Table No. 1—Number of Establishments, Horsepower, Capital Invested, Value of Production .....	121
Table No. 2—Number of Employes .....	122
Table No. 3—Wages and Salaries .....	123
Classification and Recapitulation of All Industries Reporting for 1929 .....	124-149
Table No. 1—Number of Establishments, Capital Invested, Value of Production .....	124-129
Table No. 2—Number of Employes .....	130-139
Table No. 3—Wages and Salaries .....	140-149
County Summaries by Class of Industry for 1929 .....	150-183
<b>PART III—INDUSTRIAL</b>	
Detailed Tables of Industrial Establishments by Counties and Selected Municipalities for the Year 1929 .....	185-289

## PART IV—PUBLIC UTILITIES

### General Statistics

#### STEAM RAILROADS :

Public Utilities in Pennsylvania .....	293
Principal Lines .....	297
Summary of Tabulated Statistics for the Years 1928 and 1929— Assets, Liabilities, Mileage, Equipment, Persons Employed and Compensation, Train Mileage, Number of Passengers Carried, Kinds of Freight Carried in Tons, Quantity of Freight Carried, Earnings and Income, Expenses .....	301
Statistical Information Relating to Lines Leased and Operated by Other Companies .....	302
Statistical Information Relating to Independent Companies, Whose Lines are Wholly within the State .....	302
Statistical Information Relating to Companies Whose Operations are Wholly within the State and Controlled by Other Com- panies through Stock Ownership .....	304
Statistical Information Relating to Switching, Terminal and Plant Companies .....	306

#### STREET RAILWAYS :

Summary of Tabulated Statistics for the Years 1928 and 1929— Assets, Liabilities, Income, Disbursements, Mileage, Equipment, Persons Employed and Passengers Carried .....	307
Statistical Information Relating to Lines Leased and Operated by Other Companies .....	307

#### TELEPHONE COMPANIES :

Summary of Tabulated Statistics for the Years 1928 and 1929— Assets, Liabilities, Revenue and Expenses, Employes, Compen- sation, Line and Wire, Exchanges and Instruments .....	308
--	-----

#### TELEGRAPH COMPANIES :

Summary of Tabulated Statistics for the Years 1928 and 1929— Assets, Liabilities, Revenue and Expenses, Employes, Compen- sation, Line and Wire .....	308
---	-----

### Detailed Statistics

#### STEAM RAILROADS :

Assets .....	309
Liabilities .....	312
Mileage .....	315
Equipment and Persons Employed .....	318
Train Mileage .....	321
Number of Passengers Carried, Cost per Mile, etc. ....	323
Kinds of Freight Carried, in Net Tons .....	325
Quantity of Freight Carried, Cost per Ton, etc. ....	327
Earnings and Income .....	329
Expenses—	
Operating .....	332
Total Expenditures, Dividends, Surplus or Deficit .....	335
Capitalization, Indebtedness, Cost of Road and Equipment, In- come and Disbursements of Lines Leased and Operated by Other Companies .....	338

#### STREET RAILWAYS :

Assets .....	341
Liabilities .....	344
Mileage, Equipment, Persons Employed and Passengers Carried ..	346
Income .....	348
Disbursements .....	350

# PART IV—PUBLIC UTILITIES—Continued

STREET RAILWAYS—continued:	<i>Page</i>
Capitalization, Indebtedness, Cost of Road and Equipment, Income and Disbursements of Lines Leased and Operated by Other Companies .....	352
TELEPHONE COMPANIES:	
Assets .....	356
Liabilities .....	362
Revenue and Expenses .....	368
Exchanges, Instruments, Employes, Compensation, Line and Wire .....	374
TELEGRAPH COMPANIES:	
Assets .....	380
Liabilities .....	380
Revenue and Expenses .....	381
Offices, Employes, Compensation, Line and Wire .....	381
NATURAL AND MANUFACTURED GAS COMPANIES:	
Exhibit Showing the Distribution and Sale of Natural and Manufactured Gas, Years 1928 and 1929 .....	383
ELECTRIC LIGHT, HEAT, POWER AND STEAM HEAT COMPANIES:	
Exhibit of Private and Municipal Public Utilities, Showing the Distribution and Sale of Electric Light, Heat, Power, and Steam Heat for the Year 1929 .....	384
WATER COMPANIES:	
Exhibit Showing Capital Invested, Employes, Compensation, Quantity Sold, etc., of Private and Municipal Operations .....	386
RAILROAD AND STREET RAILWAY REPAIR SHOPS:	
Exhibit Showing Number of Establishments, Employes, Compensation, Capital Invested, etc., by Counties .....	387

# PART V—MISCELLANEOUS STATISTICS

BANKING STATISTICS:	
Comparative Exhibit Showing Savings and Bank Resources, by State and Counties, Years 1927, 1928 and 1929 .....	390-457
Savings, Bank Resources, and Per Capita Savings and Bank Resources, by State and Counties, Years 1928 and 1929 .....	458
Exhibit Showing Number of Retail and Wholesale Mercantile Licenses, Amount of Retail and Wholesale Mercantile Taxes, and Volume of Retail and Wholesale Mercantile Business in Pennsylvania, by Counties, for the year 1929 .....	460-461
Exhibit of Quantity Production by State and Counties for the Year 1929 .....	462-470
Exhibit Showing Wage Earners, Wages, Production, and Per Capita Wages and Production, for 1929, by State and Counties .....	471
Per Capita Wages of Males and Females, by Counties 1929 .....	472
Horsepower of Engines and Motors in Industrial Establishments, by Counties, 1929 .....	473
Exhibit Showing Value of Factory, Mine, Quarry, and Agricultural Products, for 1929, by State and Counties .....	474
Pennsylvania Counties Ranked according to Number of Wage Earners and Wages Paid in Industry, 1929 .....	475
Pennsylvania Counties Ranked according to Value of Production and Capital Invested in Industry, 1929 .....	476
Pennsylvania Municipalities Ranked according to Number of Wage Earners and Wages Paid in Industry, 1929 .....	477
Pennsylvania Municipalities Ranked according to Value of Production and Capital Invested in Industry, 1929 .....	479
Wage Earners Classified by Industries and Wage Groups, 1929—	
State Summary—	
Males .....	481-483
Females .....	484-486
Philadelphia County—	
Males .....	487-489
Females .....	490-492
Allegheny County—	
Males .....	493-495
Females .....	496-498
Production of Crude Oil in Pennsylvania for the Year 1929.....	499

## FOREWORD

By PHILIP H. DEWEY

*Secretary of Internal Affairs*

The report covering industrial operations in Pennsylvania in 1929 was compiled during the term of my predecessor in office, but because of delayed publication is now issued in combination with the report for 1930. Part of the information in these two reports has already been made available to the public in condensed form through advance newspaper releases and through special tabulations furnished to chambers of commerce and other interested persons. At the same time, a great deal of interest continues to be manifested in the full printed reports, and numerous letters on file indicate how valuable this series of reports is regarded as a permanent, unbroken record of the activity and progress of Pennsylvania industry from year to year.

A new feature in this volume is the addition of a group of cities and boroughs for which separate industrial figures have never heretofore been published. This has been made possible by the decision to compile total industrial figures for some of the leading boroughs in the State, even though the number of industrial establishments in each may not be large enough to justify showing the different lines of industry separately. As a general rule, where the total number of industrial establishments in a municipality is less than 40, details by industries are not shown but only the totals for all industries in the municipality. In a few instances where a municipality has one or two very large plants which give a high total for value of production, details by industries are omitted in order to avoid disclosing confidential information. The same general rule that has been in effect for some years past has been followed of publishing separate statistics only for those lines of industry showing three or more establishments of a kind. Wherever such detailed statistics have had to be omitted, however, the county or municipality has received full credit for all establishments in the total figures.

Attention is directed to the fact that municipal data in this report cover only the area within the incorporated limits of the city or borough. In some cases this may appear not to give full credit to a city having an outlying industrial area outside the city limits, but it has been necessary to follow an arbitrary rule and to define the area in a definite manner which would not be open to the criticism that too large an area had been included for one city and too small an area for

another. Following this rule, it is apparent that coal mines, which are generally located outside of city limits, can be tabulated only under the respective counties and not in any city. Allowance should therefore be made in comparing industrial statistics of a city in the coal regions with a manufacturing city elsewhere in the State, since such cities are generally more important as industrial centers than the manufacturing statistics alone can indicate. The industrial statistics presented for counties, on the other hand, include both manufacturing and mining and cover all such enterprises located within the boundaries of each county.

A comparison of the industrial output in each of the 67 counties of Pennsylvania in 1929, as presented in detail in this report, discloses that only two counties were below the million dollar mark in value of production, while 20 counties had an industrial output in excess of \$125,000,000 each. These leading industrial counties in their order of importance according to value of products are: Philadelphia, Allegheny, Beaver, Luzerne, Delaware, Westmoreland, Berks, Montgomery, Northampton, Lehigh, Washington, Lackawanna, Lancaster, York, Erie, Mercer, Lawrence, Dauphin, Cambria and Schuylkill. Seventeen other counties each produced manufactured and mined products having a value of over \$25,000,000. For the State as a whole, production in 1929 reached the record total of \$8,002,679,100, the number of employes in industry was 1,440,225 and their wages and salaries amounted to \$2,144,397,300. These and many other important facts might be analyzed at length, but the detailed figures on the following pages supply the basic data so that any person interested can with little effort obtain the essential facts concerning the industries both of the State and of his own county or community.

## COMPOSITE EXHIBIT

PRODUCTIVE INDUSTRIES AND PUBLIC SERVICE COMPANIES IN  
PENNSYLVANIA, YEARS 1928 AND 1929

	Year	Average number employees	Total compensation	Invested capital	Volume of business or value of product
<b>PRODUCTIVE INDUSTRIES</b>

ROAD AND ELECTRIC STREET  
RAILWAY REPAIR SHOPS,  
YEAR 1929**

---

## PUBLIC UTILITIES IN PENNSYLVANIA <sup>1</sup>

### Steam Railroads

The story of our utilities companies, though many times repeated, bears an important message each year showing the immense amount of business transacted and at the same time creating added wonder and interest in the many achievements of the public utilities within the Commonwealth.

One of the outstanding improvements begun during the past year is the railroad electrification program. It is estimated that the Pennsylvania Railroad is spending approximately \$100,000,000 for electrification of its road between New York, Philadelphia and Washington, which will require 150 electric locomotives at an additional cost of \$16,000,000. Under this new electrification plan the running time between New York and Washington will be reduced from five to four hours and between Philadelphia and New York from two to one and a half hours. These new electric engines are designed to develop a maximum speed of at least ninety miles an hour, with a prospect of exceeding one hundred miles.

With the increase of speed comes the announcement of a new safety device known as auto cab signals, miniature signal lights in the engine cab which automatically duplicate the signals on the road ahead. An expenditure of more than \$16,000,000 has been made by the Pennsylvania Railroad for the installation of and improvements to its automatic signal system from the Atlantic seaboard to the Mississippi River. Improvements of block signals which have been in operation on all the railroad lines for many years, the installation of cab signals on the lines between New York, Philadelphia and Washington and other new safety devices will be completed before this report is published.

A fair idea of the magnitude of this great railroad system may be had by considering the fact that they operate 6,100 locomotives which consume approximately 15,000,000 tons of coal annually in the operation of 271,000 freight cars over 28,000 miles of track. This one railroad uses more than 200,000 tons of steel rails and over 3,000,000 cross ties annually in renewals. To the army of employes is paid about one million dollars each day in wages and more than \$44,000,000 is paid each year for taxes.

We are also pleased to record the extensive electrification program of the Reading Railroad Company. The system to be completed and in operation by July, 1931, includes the lines from Reading Terminal to Wayne Junction, Jenkintown, Langhorne, West Trenton and from Jenkintown to Glenside and Hatboro, as well as the route from Lansdale to Doylestown. The Reading's original program of suburban electrification included approximately 50 miles of route and 120 miles of single track, but the management have now decided to make two important additions to the \$20,000,000 program — from Langhorne to West Trenton and from Lansdale to Doylestown. These additions

<sup>1</sup> Prepared by F. C. Gerberich, Chief of the Division of Public Utilities.

will bring the total to 69 miles of route and 161 miles of single track, at an additional cost of approximately \$1,500,000. It is expected that a second step will be undertaken in electrification upon completion of the first program. The electrified lines will be extended from West Trenton to Bound Brook, and ultimately to New York, and from Lansdale to Bethlehem. Electrification of the Schuylkill Valley lines probably will also be undertaken. It is estimated that this contemplated construction will cost an additional \$32,000,000.

The question of what will become of the railroads is often discussed. Over the highways of the United States passes a mighty procession of busses, trucks, and passenger automobiles—22,000,000 of them—carrying persons and freight. It looks as if this mighty parade of motor vehicles would cut considerably into railroad revenue. But don't weep for the railroads yet, as reports of their slow death have been greatly exaggerated! Returns from the railroad companies reporting to the Department of Internal Affairs show the following results for 1929, the significant point being that the figures for net operating revenue represent an increase of 1.75 per cent over 1928:

Operating revenues .....	\$2,011,510,349
Operating expenses .....	1,488,840,675
Net operating revenue .....	\$522,669,674

These returns cover 222 companies operating 12,656 miles of line within the State, as compared with 12,891 miles for 229 companies in 1928, a falling off of seven companies and but 235 miles of line operated. The motive power used by the 222 companies operating in Pennsylvania at the close of 1929 consists of 18,561 locomotives, and their rolling stock includes 17,671 passenger cars and 817,065 freight cars, beside many other cars of various classes equipped for special use. In addition to their rolling stock, these companies operate 252 steamboats and tugboats, 1,559 barges, carfloats and canal boats, and other marine equipment making a total of 2,000 vessels of all kinds in the "Railroad Navy." These roads gave employment to 526,052 persons, who were paid \$891,127,153 in wages and salaries during the year. The amount invested in road and equipment was \$5,181,076, 658, and total assets amounted to \$8,046,638,759, as compared with \$7,702,958,997 in 1928, an increase of approximately 4.5 per cent.

Some idea of the enormous cost of this huge equipment may be conveyed by citing the cost of individual pieces of railroad equipment. Locomotives cost from \$78,992 to \$106,506; switching engines, \$48,026; passenger coaches from \$28,860 to \$29,430; baggage cars, \$18,873; dining cars, \$42,600; dining observation cars, \$50,199; baggage and mail cars, \$20,000 to \$26,047; chair cars, \$29,852; express cars, \$19,670; box cars, \$1,380 to \$2,481; cabooses, \$2,380 to \$3,040; various types of freight cars, \$2,031 to \$3,053; all-steel passenger coaches, \$25,000; wooden passenger cars, \$8,000; while the cost of wooden ties runs from \$1.54 to \$2.00 each.

Early in 1930 the Pennsylvania Railroad completed what is claimed by officials of the company to be the longest stretch of heavy rails in the world. This was celebrated by the time-honored railroad custom of driving a golden spike to mark the completion of the railroad's new 908 miles of double track equipped with 130-pound rails. This

new section linked New York and Chicago with an entire double track made up of the latest type steel rail weighing 130 pounds to the yard. Former rails weighed about 100 pounds, and not many years ago rails weighing but 70 pounds were considered heavy. In improving the line between the Nation's two largest cities, the company reconstructed 2,852 miles of track including a large portion of third and fourth tracks at a cost of \$38,000,000.

Most prominent among the group of seven railroad companies which have either merged, consolidated or been abandoned is the Honesdale Branch of the Delaware & Hudson Railroad, one of the oldest railroads in Pennsylvania, and the first in America, according to good authority, on which steam locomotives were used other than for mere experiment. The line known as the Honesdale Branch, extending from Racket Brook, Lackawanna County, to Honesdale Junction, Wayne County, a distance of 23.5 miles, was built in 1828-29, having been originally constructed as a gravity railroad for the shipment of coal from the mines to the Delaware and Hudson Canal. It was on this branch of the Delaware & Hudson that Stephenson's "Stourbridge Lion," the first steam locomotive to be operated in America, made its historic run.

#### Electric Street Railways

If our magnificent street railway systems are to maintain their efficiency and the good service formerly rendered, then they should be encouraged and freely patronized by the public. It is fairly understood that the struggle they are now having is caused by the general use of automobiles. During the year 1929 fourteen companies have either merged, consolidated or gone out of business, mostly the latter. The following figures will show at a glance the financial plight of the companies reporting:

	1928.	1929	Increase or decrease (—) in 1929
Assets .....	\$739,474,486	\$717,110,082	-2.32%
Income .....	\$115,457,565	\$105,699,991	-8.45
Expenses .....	\$104,378,721	\$106,272,351	1.81
Operating companies ...	219	205	-6.39
Miles of track operated	4,107	3,790	-7.72
Number passengers carried .....	1,572,728,127	1,568,313,847	— .38
Cars in operation .....	8,388	8,005	-4.68

#### Telephone Companies

We received reports from 267 operating companies during the year, which was a small decrease from 1928. While fewer companies reported, there was an increase in business as shown in the following table:

	1928	1929	Increase or decrease (—) in 1929
Assets .....	\$2,549,281,159	\$2,835,529,194	11.23%
Cost of plant and property .....	\$525,032,891	\$630,921,200	20.17
Phones in use .....	1,470,888	1,548,155	5.25
Employees .....	29,089	31,415	7.98
Wages paid employees ..	\$39,546,509	\$43,690,512	10.48

### Electric Companies

During the year 1929, reports were received from 310 electric light, heat and power companies, fewer by 105 companies than reported in 1928. This decrease in number of companies reporting was caused mostly by mergers and consolidation, while at the same time there was a marked increase in the volume of business transacted, as the following table will show:

	1928	1929	<i>Increase or decrease (—) in 1929</i>
Capital invested .....	\$832,510,995	\$954,052,837	14.60%
Number employes .....	25,635	24,058	-6.15
Compensation paid .....	\$41,167,230	\$42,533,500	3.32
Revenue derived from electric light .....	\$93,210,022	\$96,818,164	3.87
Revenue derived from electric heat .....	\$258,065	\$281,937	9.25
Revenue derived from electric power .....	\$89,442,925	\$95,168,527	6.40

### Gas Companies

Reports were received during the year from 143 natural gas companies, which show a slight decrease in capital invested, although increases are found throughout the reports as follows:

	1928	1929	<i>Increase or decrease (—) in 1929</i>
Capital invested .....	\$141,391,396	\$140,710,671	-0.48%
Number consumers .....	622,180	631,684	1.53
Revenue derived .....	\$54,638,804	\$57,537,481	5.30
Employes .....	7,747	8,596	10.96
Wages paid .....	\$11,361,016	\$12,390,505	9.06

In the 63 manufactured gas companies reporting, we find a slight increase in capital invested, number of consumers and revenue derived, while in the number of employes and wages paid they report a decrease as is here shown:

	1928	1929	<i>Increase or decrease (—) in 1929</i>
Capital invested .....	\$179,789,747	\$184,589,117	2.67%
Number consumers .....	847,755	863,975	1.91
Revenue derived .....	\$35,117,323	\$36,171,019	3.00
Employes .....	6,803	6,214	-8.66
Wages paid .....	\$10,263,732	\$9,867,497	-3.86

### Water Companies

There are now 192 municipal and 436 privately-owned water companies, a total of 628, or two more companies than reported in 1928.

	1928	1929	<i>Increase or decrease (—) in 1929</i>
Capital invested— municipal .....	\$170,172,361	\$178,525,526	4.91%
Capital invested— privately-owned .....	\$200,049,189	\$209,528,886	4.74
Consumers .....	1,664,480	1,663,757	-.04
Revenue derived .....	\$38,544,736	\$39,935,479	3.61
Wages paid .....	\$10,279,302	\$10,109,395	-1.65

### Steam Heat Companies

Thirty-four steam heat companies reported during the year, showing the following results:

	1928	1929	<i>Increase in 1929</i>
Capital invested .....	\$9,633,638	\$11,627,267	20.67%
Number consumers .....	12,201	12,272	.58
Revenue derived .....	\$4,667,672	\$4,674,464	.14
Number employed .....	283	302	6.71
Wages paid .....	\$463,941	\$552,555	19.10

For the information of those to whom it may be of interest, we again publish the following:

Reports have been received and are now on file in this Department since 1867. These early reports were made to the Auditor General until after the revision of the Constitution in 1876 when reports, records, etc., of all transportation companies were authorized to be transferred to the Secretary of Internal Affairs. Many of these old reports thus referred to have become very valuable as shown by the frequent demands made upon the Department for information contained therein.

### PRINCIPAL STEAM RAILROADS

The principal railroads of the State may be grouped into two general classes, those operated by well defined systems and by independent companies.

The principal railroad systems operating in the State are:

	<i>Miles in Pa.</i>
Baltimore & Ohio .....	729.88
Bessemer & Lake Erie .....	223.12
Buffalo, Rochester & Pittsburgh .....	412.02
Buffalo & Susquehanna .....	233.66
Central Railroad of New Jersey .....	241.05
Delaware & Hudson .....	124.15
Delaware, Lackawanna & Western .....	263.63
Erie .....	654.36
Lehigh & New England .....	152.46
Lehigh Valley .....	570.79
Maryland & Pennsylvania .....	37.40
Monongahela .....	106.06
New York Central .....	899.78
New York, Chicago & St. Louis .....	43.98
New York, Ontario & Western .....	72.29
New York, Susquehanna & Western .....	4.70
Pennsylvania .....	4,205.61
Pittsburgh & Lake Erie .....	214.86
Pittsburgh & Shawmut .....	102.96
Pittsburgh, Shawmut & Northern .....	108.27
Pittsburgh & West Virginia .....	65.96
Reading Company .....	1,377.47
Union .....	298.22
Western Maryland .....	247.80
Wilkes-Barre & Eastern .....	87.04

These twenty-five companies operate either by lease or ownership of stock, one hundred and eleven subsidiary companies, whose lines are

wholly or mostly in this State. The following table shows the subsidiary companies controlled and the mileage of each subsidiary company in this and adjoining states:

	Miles in Pa.	Miles in other states

**GENERAL STATISTICS OF STEAM RAILROADS SUMMARIZED FROM  
TABULATED STATEMENTS COVERING YEAR 1929 AND  
SHOWING COMPARISON WITH YEAR 1928**

	1928	1929
<b>ASSETS</b>		
Investment in road and equipment .....	\$5,008,061,656	\$5,181,076,658
Investment in stocks, bonds, notes and advances .....	1,669,946,804	1,860,946,558
Other investments .....	346,686,330	350,274,219
Cash and current assets .....	528,329,247	493,370,724
Other assets .....	149,934,960	158,970,600
Total assets .....	\$7,702,958,997	\$8,046,638,759
<b>LIABILITIES</b>		
Capital stock outstanding .....	\$2,328,000,606	\$2,376,288,996
Funded debt .....	2,628,504,358	2,653,132,863
Other long term debt .....	33,220,358	39,134,786
Total amount of other forms of indebtedness, including current liabilities and appropriated surplus .....	1,804,709,886	1,928,231,753
Total liabilities .....	\$6,794,435,208	\$6,998,788,308
<b>MILEAGE</b>		
Main line .....	9,369.19	9,116.51
Branches and spurs .....	7,995.45	7,979.82
Line of proprietary company .....	3,859.63	3,897.66
Lines operated under lease .....	12,466.29	12,432.31
Lines operated under contract, etc. ....	1,724.13	1,988.09
Lines operated under trackage right .....	2,393.35	2,404.90
Total mileage operated .....	37,808.04	37,819.29
Total number of miles operated in Pennsylvania .....	12,891.17	12,655.87
Miles of new line constructed during the year .....	8.66	12.22
Aggregate length of all tracks, including yard tracks, sidings and spurs .....	86,671.51	86,491.19
<b>EQUIPMENT, PERSONS EMPLOYED AND COMPENSATION</b>		
Number of cars in passenger service .....	17,641	17,671
Number of cars in freight service .....	828,949	817,065
Number of cars in company service .....	25,159	25,390
Total number of cars in service .....	871,749	860,126
Number of locomotives in service .....	19,458	18,561
Number of employes .....	522,603	526,052
Yearly compensation .....	\$877,232,334	\$891,127,153
<b>TRAIN MILEAGE</b>		
Number of miles run by freight trains .....	151,692,026	154,307,631
Number of miles run by passenger trains .....	159,433,566	149,258,331
Number of miles run by mixed and special trains .....	2,735,717	2,512,543
Total number of miles run .....	313,861,309	306,078,505
<b>NUMBER OF PASSENGERS CARRIED</b>		
Number of passengers carried earning revenue .....	317,892,606	308,378,053
<b>KINDS OF FREIGHT CARRIED IN TONS</b>		
Products of agriculture .....	38,768,667	36,893,140
Products of animals .....	11,242,500	11,019,833
Products of mines .....	529,329,921	564,424,475
Products of forests .....	28,047,667	27,056,543
Miscellaneous and L. C. L. goods not distributed above ..	330,007,641	268,661,184
<b>QUANTITY OF FREIGHT CARRIED</b>		
Number of tons carried of freight earning revenue .....	937,396,396	908,055,175
<b>EARNINGS AND INCOME</b>		
Freight earnings .....	\$1,456,669,336	\$1,519,776,133
Passenger service train earnings .....	435,015,646	445,650,665
Switching and other earnings from operations .....	42,989,002	46,083,551
Total earnings from operations .....	\$1,934,673,984	\$2,011,510,349
Income from other sources, including interest on bonds, dividends on stock, rentals, etc. ....	241,155,460	202,527,309
Total earnings and income .....	\$2,175,829,444	\$2,214,037,658

	1928	1929
<b>EXPENSES</b>		
Maintenance of way and structure .....	\$241,909,448	\$250,284,786
Maintenance of equipment .....	400,463,147	420,999,834
Conducting transportation and traffic .....	740,830,858	759,399,105
General expenses, less transportation for investment ....	58,045,808	58,156,950
Total operating expenses .....	\$1,441,249,261	\$1,488,840,675
Other expenses, as per deductions from income .....	466,856,871	439,329,733
Total expenditures for the year .....	\$1,908,106,132	\$1,928,170,408
Amount of dividends paid during the year .....	\$139,434,303	\$156,115,147
Surplus for the year ending Dec. 31st after deducting dividends .....	131,509,195	135,004,912
Deficit for the year ending Dec. 31st after deducting dividends .....	3,542,362	5,252,809

### STATISTICAL INFORMATION FOR STEAM RAILROADS RELATING TO LINES LEASED AND OPERATED BY OTHER COMPANIES

	1928	1929
Capital stock outstanding .....	\$514,324,947	\$503,545,656
Funded and unfunded indebtedness .....	755,955,110	771,145,163
Cost of road equipment and other assets .....	1,308,721,579	1,298,729,446
Income through rental of road and other sources .....	75,593,339	46,640,195
Dividends .....	22,557,601	25,635,850
Other disbursements .....	36,515,401	19,291,231

### STATISTICAL INFORMATION RELATING TO INDEPENDENT STEAM RAILROADS, WHOSE LINES ARE WHOLLY WITHIN THE STATE

	1928	1929
<b>ASSETS</b>		
Investment in roads and equipment .....	\$67,874,621	\$67,779,241
Investment in stocks, bonds, notes and advances .....	8,673,734	9,206,207
Other investments .....	10,451,899	10,497,293
Cash and current assets .....	5,677,254	6,454,381

Total assets .....	\$94,783,450	\$96,193,447
<b>LIABILITIES</b>		
Capital stock outstanding .....	\$41,061,818	\$39,878,818
Funded debt .....	16,546,124	14,949,252
Other long term debt .....	13,518,778	1,507,737
Total amount of other forms of indebtedness including current liabilities and appropriated surplus .....	19,357,358	31,432,162
Total liabilities .....	\$90,484,078	\$87,767,969
<b>MILEAGE</b>		
Main line .....	816.58	725.53
Branches and spurs .....	110.50	111.60
Lines operated under lease .....		65.33
Lines operated under trackage rights .....	49.18	55.73
Lines of proprietary companies .....	13.50	13.50
Lines operated under contract .....		
Total mileage operated .....	989.76	971.69
Miles of new line constructed during the year .....		.13
Aggregate length of all tracks, including yard tracks, sidings and spurs .....	1,428.83	1,334.97

	1928	1929
<b>EQUIPMENT, PERSONS EMPLOYED AND COMPENSATION</b>		
Number of cars in freight service .....	9,365	9,111
Number of cars in passenger service .....	186	169
Number of cars in company service .....	168	164
Total number of cars in service .....	9,719	9,444
Number of locomotives in service .....	195	194
Number of employees .....	2,935	2,955
Yearly compensation .....	\$4,401,546	\$4,547,785
<b>TRAIN MILEAGE</b>		
Number of miles run by freight trains .....	987,163	1,022,659
Number of miles run by passenger trains .....	1,821,811	1,502,699
Number of miles run by mixed and special trains .....	171,334	127,644
Total number of miles run .....	2,980,308	2,653,002
<b>NUMBER OF PASSENGERS CARRIED</b>		
Number of passengers carried earning revenue .....	4,805,996	4,368,574
<b>KINDS OF FREIGHT CARRIED IN TONS</b>		
Products of agriculture .....	108,132	89,081
Products of animals .....	58,479	45,076
Products of mines .....	19,460,763	22,247,347
Products of forests .....	657,623	756,915
Miscellaneous, L. C. L. goods not distributed above .....	3,753,402	3,678,526
Total quantity of freight carried earning revenue ....	24,038,399	26,816,945
<b>INCOME</b>		
Freight earnings .....	\$9,273,758	\$9,902,489
Passenger service train earnings .....	1,086,766	1,105,983
Switching and other earnings from operations .....	204,190	183,124
Total earnings from operation .....	\$10,564,714	\$11,191,596
Income from other sources including interest on bonds, dividends on stock, rentals, etc. ....	2,364,342	1,871,092
Total earnings and income .....	\$12,929,056	\$13,062,688
<b>DISBURSEMENTS</b>		
Maintenance of way and structures .....	\$1,832,132	\$1,785,678
Maintenance of equipment .....	2,843,380	2,488,798
Conducting transportation and traffic .....	3,087,571	3,185,587
General expenses less transportation for investment .....	681,333	719,861
Total operating expenses .....	\$8,444,416	\$8,179,924
Other expenses, as per deduction from income .....	2,865,399	2,541,153
Total expenditures for the year .....	\$11,309,815	\$10,721,077
Amount of dividends paid during the year .....	\$750,563	\$1,071,282
Surplus for the year ending Dec. 31st, after deducting dividends .....	1,315,085	1,595,992
Deficit for the year ending Dec. 31st, after deducting dividends .....	454,063	354,734

**STEAM RAILROAD COMPANIES WHOSE OPERATIONS ARE WHOLLY  
WITHIN THE STATE AND CONTROLLED BY OTHER COMPANIES  
THROUGH STOCK OWNERSHIP**

Average number of exchange messages per month in Pennsylvania .....	171,530,201	180,759,105
Length of line—miles in Pennsylvania .....	45,890	59,231
Length of line of wire—miles in Pennsylvania .....	5,505,716	5,582,064

**GENERAL STATISTICS OF TELEGRAPH COMPANIES SUMMARIZED  
FROM TABULATED STATEMENTS COVERING YEAR 1929  
AND SHOWING COMPARISON WITH YEAR 1928**

	1928	1929
<b>ASSETS</b>		
Cost of plant and property .....	\$268,465,668	\$281,181,307
Stocks and bonds of other companies .....	32,616,522	45,284,650
Cash and current assets .....	52,071,161	35,534,549
Total assets .....	\$353,153,351	\$362,000,506
<b>LIABILITIES</b>		
Capital stock outstanding .....	\$102,781,674	\$102,782,442
Funded debt .....	73,205,000	73,180,000
Current liabilities, etc. ....	90,689,275	90,272,074
Total liabilities .....	\$266,675,949	\$266,234,516
<b>REVENUE AND EXPENSES</b>		
Total receipts .....	\$141,399,653	\$152,679,730
Total expenditures .....	125,863,688	135,190,934
Net revenue .....	15,535,965	17,495,115
Dividends .....	8,096,634	8,200,206
Surplus .....	7,447,968	9,294,909
Deficit .....	8,637	6,319
<b>EMPLOYES, COMPENSATION, LINE AND WIRE</b>		
Employees in Pennsylvania .....	4,630	4,705
Number of offices in Pennsylvania .....	1,802	1,817
Compensation in Pennsylvania .....	\$5,403,609	\$4,553,870
Length of line in Pennsylvania .....	12,569	12,635
Length of line of wire in Pennsylvania .....	118,173	125,091

## STEAM RAILROADS

ASSETS, LIABILITIES, MILEAGE, EQUIPMENT AND PERSONS EMPLOYED, KIND OF FREIGHT CARRIED, EARNINGS, INCOME, AND EXPENSES

# Report on Productive Industries, Public Utilities and Miscellaneous Statistics

of the

COMMONWEALTH OF PENNSYLVANIA

for the year

1930

Compiled by  
**BUREAU OF STATISTICS**  
HENRY W. VAN PELT, Director

1932

## LETTER OF TRANSMITTAL

---

HARRISBURG, PA., *December 15, 1931.*

HON. PHILIP H. DEWEY,  
Secretary of Internal Affairs.

Sir:—

In compliance with the duties of my office, I transmit herewith the 58th Annual Report of the Bureau of Statistics, being a compilation of the statistics for the year 1930 on Productive Industries and Public Utilities, with a section devoted to Miscellaneous Statistics.

Respectfully submitted,

HENRY W. VAN PELT,  
*Director, Bureau of Statistics.*

Production of Crude Oil in Pennsylvania for the Year 1930 .....	499

# FOREWORD

By PHILIP H. DEWEY

*Secretary of Internal Affairs*

Since the record year of 1929 the trend of business and industry throughout the United States has been toward lower levels, and the detailed report herewith presented for Pennsylvania shows that this State has been no exception to the general tendency. Manufacturing and mining output in Pennsylvania during 1930 is reported by the Bureau of Statistics at \$6,531,113,220, a decline of 18.4 per cent from the record total established in the preceding year. At the same time, however, the number of persons employed in industry declined only 5.7 per cent, while the amount paid to industrial workers in wages and salaries fell off to the extent of 11.9 per cent. As a result of the smaller decline in wages as compared with production, labor received a somewhat larger share of the selling prices of manufactured commodities than at the peak of production.

Considerable light may be thrown on the trend of wage rates in different lines of manufacturing industry by considering the percentages set forth in some detail on the last few pages of this report, in comparison with similar figures for the previous year. In all branches of manufacturing taken together, only 20.9 per cent of male wage earners employed in 1929 were paid at the rate of less than four dollars per day, whereas in 1930 the same wage group included 24.1 per cent of all male wage earners. At the other end of the wage scale the same tendency toward lower wages is evidenced by a decline in the number and percentage of men receiving ten dollars and over per day. For female wage earners an analysis of the wage reports shows similar trends, although actual wage levels in this case are substantially below those for men. Thus the proportion of female wage earners receiving under three dollars per day rose from 53 per cent in 1929 to 58.8 per cent the following year; and whereas 18.6 per cent of females employed in industry were paid four dollars or more per day in 1929, this percentage had fallen to 14.4 in 1930. These shifts towards lower wage rates, entirely apart from any question of decreased employment, indicate the importance of wage adjustments that have occurred in the space of a single year.

The question is frequently asked as to which are the leading manufacturing cities of Pennsylvania. In order to supply definite data on this subject, we have included in this report a series of tables showing the relative rank in manufacturing not only of each of the larger municipalities but of each county in the State. These tables list the leading Pennsylvania cities, from the standpoint of wages paid to industrial workers, in the following order: Philadelphia, Pittsburgh, Erie, Read-

ing, Chester, Johnstown, Bethlehem, Allentown, York, McKeesport and Lancaster. Each of these cities had industrial payrolls in excess of ten million dollars in 1930, and Philadelphia and Pittsburgh reported many times that amount. The counties having the largest manufacturing and mining payrolls after Philadelphia and Allegheny are: Luzerne, Lackawanna, Schuylkill, Delaware, Westmoreland, Berks, Washington and Cambria. Further details on the industrial rank of cities and counties will be found on page 476 and following pages of this report.

The Department of Internal Affairs, through its Bureau of Statistics, is prepared at all times to furnish up-to-date industrial information covering any county or city of Pennsylvania, and I invite business men and other interested citizens to make full use of the Department's services.

## COMPOSITE EXHIBIT

PRODUCTIVE INDUSTRIES AND PUBLIC SERVICE COMPANIES IN

## Steam Railroads

No other factor in the nation's industrial activities is more essential to the needs of the people in this era of reconstruction than transportation. For this reason the railroads of the country should be amply equipped and substantially financed for the great service they alone can render. There is an imperative need for an early increase in revenues sufficient to permit the railroads to obtain new equipment sufficient to improve their carrying facilities and to meet the generally increased cost of operation, to the end that the commerce of our State and Nation may proceed in an efficient and satisfactory manner.

Whatever strengthens the railroads facilitates distribution and makes it possible to increase supplies in response to the demand. It is an anomalous situation that in a land of plenty like ours there should at times be a scarcity of the necessities of life because of an inadequate system of traffic to carry supplies from the points of production to the centers of consumption. A glut of grain in the granaries of the West, or an unlimited supply of coal at the mines, will not benefit the American people unless these essentials are brought within their reach, and this cannot be done if there is a paralysis of the railroads sufficient to cripple their proper operation. The great work of rehabilitation now demanding the attention of the people must begin with the proper equipment of the railroads, which are the arteries of traffic.

Comparing the preliminary returns of the railroads for the past year with those for the year 1929, as shown in the body of this report, merely emphasizes the depths of the distressful condition to which they have been reduced by the combination (as claimed by the companies) of inadequate rates, advancing wages, subsidized competition and the prevailing industrial depression.

In response to the President's call two years ago, the railroads greatly increased their construction program, spending many millions in electrification equipment, etc., thus making a substantial contribution to employment. Because of the difficulty of obtaining funds, they have been faced with the necessity of curtailing many of these operations, which led them to the belief that they are entitled to special governmental assistance at the present time. They also claim that the Federal laws, to say nothing of State enactments, have seriously hampered the earning power of the railroads, hedged about as they are by restrictions which have prevented them from following the policy of other industries and accumulating surpluses for years of depression.

Further reductions have been made in scheduled time of limited trains, equipment has been added, though in less amount than during the previous year, and some of the roads have developed air-cooled dining cars and more recently entire trains air cooled. Co-ordination of train, motor-bus and plane schedules continued, more day coaches of a new and comfortable type have been introduced and special fare

<sup>1</sup> Prepared by F. C. Gerberich, Chief of the Division of Public Utilities.

inducements made to win back the traveler from motor passenger service, and from the expanding use of privately owned automobiles.

Freight traffic is gradually slackening its pace. Among various items submitted in a report to the Interstate Commerce Commission by Dr. M. O. Lorenz, Director of its Bureau of Statistics, emphasis is laid on the fact that the most gigantic single change in American industry during the past few years has been the development of the automobile industry. This has taken from the railroads a large amount of passenger business and the question arises as to which effect on the railroads has been the more important, the reduction in passenger traffic or the large amounts in revenue derived by the railroads from carrying materials entering into the manufacture of motor vehicles and materials used in road building. These facts are cited not in any attempt to show that the development of the automobile industry has been undesirable, which, of course, would be absurd, but to call attention to the effects that may be produced upon the railroads by diverting traffic from them. The diversion of passenger business from the railroads has deprived them of large earnings, as previously stated, with the result that they are now asking higher freight and passenger rates to enable them to earn a larger return than they otherwise would have required had they not lost this business.

Application to the Public Service Commission of Pennsylvania for the approval of a charter for a corporation to be known as the United Transportation Company was made in the latter part of 1930, sponsored by four of our principal railroads doing business in the State, including the Pennsylvania, the Reading, the Lehigh Valley and the Central Railroad of New Jersey. The purpose is to conduct supplementary passenger and freight transportation in ten counties. The Pennsylvania Railroad and the Reading Company had previously applied for charters for the operation of buses in most of the counties of the State.

The new move includes more railroads than in the former applications and it leaves for future consideration such details as routes and schedules. However, the move is part of the growing tendency shown by the railroads of protecting themselves by competing with private bus carriers. The Public Service Commission in this State and similar organizations in other States have an intricate problem to solve in dealing fairly with the railroads and with the public. The railroads are being hard hit by the diversion of traffic from the rails to the highways, and since it is generally agreed that the railroads are a necessary factor in transportation they should be granted certain measures of self protection. On the other hand, the enormous addition to traffic which would result from the use of the highways by many additional cumbersome vehicles for freight as well as passenger transportation would necessitate the widening of highways, more durable construction and larger costs for maintenance.

A definite policy has not yet been adopted. It is time to give attention to the subject. A fair proportion of the highway cost should be borne by motor carriers, and regulations as to speed and more rigid rules covering other details for safe-guarding travelers on the highways should be adopted and strictly enforced. This is a job for the Legislature as well as the Public Service Commission.

Railroad officials have evidently come to the conclusion that they might as well operate on a public roadbed, since others are doing so, it being far cheaper to let somebody else pay the costs of maintenance. It is rather difficult to see how the situation can be changed. Nobody doubts the swath that motor buses and automobiles have cut across the passenger receipts, more particularly of railroads and trolley companies in interurban business. A passing glance on any highway paralleling or covering the territory of a steam railroad tells the story adequately. While these huge trucks and buses are not only extracting money from the highways built by and maintained by taxes, they are adding hazards to travel on the public roads, to say nothing of the inconvenience to the motorist driving his private automobile. Sooner or later the State will be gridironed by freight and passenger truck lines operated by subsidiaries of the steam roads or by others. It is estimated the wear and tear on the roads built with public money will be tremendous. The cost of upkeep on original cost will grow, which cost should be properly placed upon the users directly responsible for that increase.

The steam railroads during 1930 began their first real concerted efforts to regain passenger and freight business which had fallen off in an alarming proportion. The struggle has continued in intensified form throughout the past year, advertising by competing forms of transportation having made necessary renewed solicitation for freight and special round trip and excursion fare concessions for passenger traffic.

The American railroads last year spent \$300,000,000 for improvements in their safety devices. Although the railroads in the United States earned \$440,000,000 less in 1930 than in 1916, their payrolls were \$720,000,000 larger.

Twenty-five per cent of all grade crossing accidents in the United States during 1930 resulted from motor vehicles crashing into the sides of railroad trains.

The following is a brief summary of the operating results of the railroads serving Pennsylvania during the year 1930. Complete details will be found in the following pages of the report.

	1929	1930	<i>Increase or decrease (-) in 1930</i>
Operating revenues .....	\$2,011,510,349	\$1,845,708,519	-8.2%
Operating expenses .....	\$1,488,840,675	\$1,416,086,298	-4.8
Passengers carried .....	308,378,053	288,762,985	-6.7
Passenger earnings .....	\$445,650,665	\$415,663,028	-6.7
Freight earnings .....	\$1,519,776,133	\$1,389,278,107	-8.6
Number of employes .....	526,052	521,122	-0.9
Compensation .....	\$891,127,153	\$860,839,369	-3.4

#### Airplanes vs. Railroads

Many of the leading railroad men have been studying for some time past the possibilities of aviation as an adjunct to their carrying service, particularly for passenger traffic. Aviation history moves at such a breathless pace that what one may say respecting it today will be out of date tomorrow. We now have transcontinental airplanes carrying passengers from New York to San Francisco in 24 hours, covering the distance at an average speed of 145 miles an

hour. This remarkable service is being watched with an appraising eye. Accidents will happen, just as they do on the railroads, yet it would react very unfavorably upon many who have not yet become "air minded" if a plane were lost while trying to beat the ship of a competing line from coast to coast. It seems a little early for competitive campaigns between railroads for a place in the sky, while the innocent bystander will be constrained to hope that the effort to cut costs and time schedules does not result in any cut in the margin of safety and reliability of the new service.

### Electric Street Car Companies

Further evidence that street car officials over the country are becoming conscious of the need of going after business came to light at and during the annual convention of the American Electric Street Railway Association, where the subject was discussed by representatives of many of our leading companies.

With the motor bus and the pleasure car, the trolley companies have been facing competition of the stiffest kind. In some instances they have sought to sustain sagging revenues by appealing to the Public Service Commission and in a few instances to the Interstate Commerce Commission for permission to increase rather than lower fares. After a more thorough study of the situation, the officials of the various companies are beginning to see things in a new light. First, they feel reasonably sure they have seen their worst days; competition, they think, cannot get worse. The program, therefore, is to recapture some of these automobile passengers.

Mr. Leslie Vickers, chairman on fare structures, says that fare schedules must be arranged to meet the needs and whims of varying groups of persons. The casual rider, he says, should pay most, perhaps a ten cent cash fare on electric cars, regular daily riders should have the most reasonable fares, possibly weekly passes, providing unlimited riding for one dollar or more, or cut rates for quantities of tokens or tickets. Nothing is more likely to restore the old order of things in the street car business than a complete realization that the public must be sold the idea that it is more economical and convenient to ride the trolley than rubber tires.

In many localities throughout Pennsylvania we find the buses have taken the place of the trolley cars, yet in no city having a population of 50,000 or more have we heard that buses are used exclusively. It is therefore reasonable to assume that with the combined use of the trolley cars, trolley coaches and buses the difficult problem of taking care of the public in our congested cities will be solved, at least for the present. Enough has been done by electric street railways to demonstrate, without question, that it is possible for the street car once more to resume its place and hold its own in urban traffic. No one factor can do more to stimulate the morale of the industry and to improve the public attitude toward it than the return of a common conviction by operators and the public that a modern street car is not an obsolete impediment in city traffic and that it can move aggressively with the traffic stream.

Much of the uncertainty concerning the future of the trolley companies has risen from the decline in numbers reporting each year and from reductions in street railway earnings. However, the fact must

not be overlooked that the direct increase of abandonment during the past two years of depression has been slight. A good deal of publicity was given to a petition filed recently in the Dauphin County Court by the Secretary of the Commonwealth to cancel the charters of sixteen electric street railway companies. It is worth pointing out that most of these companies were abandoned years ago and a few had done nothing at any time other than secure a charter. The move by the State was to clean house by removing all records of such dead matter from their books.

The saturation point of the private automobile has been predicted numbers of times. Yet it is probably true that no one knows where that point is. Considerable time and space were devoted to the study of the trend of automobile purchase and usage by the 1930 committee on movement of vehicles. A paragraph from the report of Proceedings of the Transportation and Traffic Association for the year 1930 is here repeated:

"It is too early in the development of the automobile, and facts are too inadequate to draw definite conclusions with respect to the ultimate competitive effects of the private automobile on collective transportation. It would seem clear, however, that the period of very rapid automobile expansion, as witnessed during the past decade, is drawing to a close. This does not mean that the number of automobiles in use in cities may not steadily and very materially increase in the future. The implication is, however, that a balance is being approached and that such increases as do take place may be in ratio to population increments. The conclusion is that the most severe aspects of automobile competition have now been felt by collective transportation facilities with respect to city transportation, and that the future may show a similar distribution to that now found, with some probable shifts toward collective transportation, with increases in street congestion and with improved transportation methods."

With interurban cars supplanted by buses in many sections of the country, and with taxicabs and city bus lines crowding out street cars, the electric railway industry seems to be more and more a trolley and bus industry. A glance at the exhibits at an electric railway convention will assure one of that fact. There is, however, a strong feeling that street cars are the cheapest, safest and most effective means of mass transportation.

Community development depends largely upon adequate transportation facilities which are positively essential to the growth and development of every community. All good citizens are vitally interested in the constructive development of their street railway company. It serves the people who deal with you, who work with you; it serves your friends, your neighbors, your fellow citizens. Your success and your good pleasure depend, in no small degree, on the ability of your electric railway company to serve those who live and work in your community. Familiarize yourself with the problems your local electric railway company is trying to solve. They cannot be solved without your constructive help and interest. The common aim of the street car companies is to make it possible for your city to grow, not in size alone but in resources and attractiveness; to make for better living, cleaner living, higher living for everyone. It is and has been for years past the electric traction that first of all, brings a community into real progressive existence and

that makes its expansion a possibility. Furthermore, it is good business for each citizen to take a financial interest in the great project. Every home served by an electric railway should take sufficient interest in the success of the enterprise to own, when it is possible, at least one of its bonds or a share or two of stock. It appears as though the local street railway should really be owned by the individuals who make up the public.

The companies abandoned, merged, dissolved or sold since the publication of our last report are listed below:

Bethlehem Transit Co. ....	Abandoned	Jan.	17, 1930
East Reading Electric Railway Co. ....	Sold	Mar.	23, 1931
Jersey Shore Electric Railway Co. ....	Dissolved	May	23, 1930
Kutztown & Fleetwood Street Railway Co. ....	Dissolved	Mar.	31, 1930
North Braddock Street Railway Co. ....	Sold	Apr.	14, 1931
Reading City Railway Co. ....	Sold	Mar.	23, 1931
Reading & Hamburg Railway Co. ....	Abandoned	Jan.	31, 1930
Schuylkill Railway Co. ....	Abandoned	June	19, 1930
Warren Street Railway Co. ....	Dissolved	Feb.	14, 1930
Waverly, Sayre & Athens Traction Co. ...	Ceased operating	June	11, 1930
Whitehall Street Railway Co. ....	Dissolved	Mar.	7, 1931
Womelsdorf & Myerstown Railway Co. ...	Abandoned	Jan.	31, 1930
Wyomissing Valley Railway Co. ....	Abandoned	Jan.	31, 1930

A merger may be defined as the absorption of one of two existing corporations by the other in such wise that the absorbed or merged corporation ceases to exist as a legal entity, its property passing to the merging or absorbing company which assumes all the merged corporation's obligations. A consolidation may be defined as the union of two or more existing corporations into a new corporation.

The plight of the street railway companies is shown in the following summary figures:

	1929	1930	Increase or decrease (-) in 1930
Assets .....	\$717,110,082	\$726,848,886	1.3%
Income .....	\$105,699,991	\$95,739,677	-9.4
Expenses .....	\$106,272,351	\$97,764,362	-8.0
Operating companies .....	205	199	-2.9
Miles of track operated ....	3,790	3,620	-4.5
Number passengers carried	1,566,677,062	1,442,923,997	-7.9
Cars in operation .....	8,005	7,870	-1.7

#### Telephone Companies

During the past year we received reports from 264 operating telephone companies, this number being three less than were reported in 1929. For the past few years there has been a marked decrease in the number of companies reported due mostly to the absorption of the small companies by the larger ones. This by no means lessens the scope of the telephone or its service, but has rather enlarged the business, as the following tables show. It must not be forgotten that the telephone has been one of the foremost agencies in the development and remarkable progress of this country during the last quarter century, and has by no means reached the limit of its possibilities either for expansion or usefulness. Many of our small independent companies doing business in the State still continue to render a most important service to the public.

	1929	1930	<i>Increase or decrease (-) in 1930</i>
Assets .....	\$2,835,529,194	\$3,548,072,808	25.1%
Liabilities .....	\$2,474,110,362	\$3,197,438,150	29.2
Cost of plant and property	\$630,921,200	\$741,805,449	17.6
Phones in use .....	1,548,155	1,612,053	4.1
Number of employes .....	31,415	29,752	-5.3
Wages paid .....	\$43,690,512	\$44,486,255	1.8

#### Electric Companies

Reports were received during the year from 138 electric light, 115 electric power and 25 electric heat companies. Mention is here made of the fact that in the number of electric light companies reported many of the heat and power companies are included, as most of the larger companies report the manufacture and sale of electric light, heat and power, thus the duplication. The above figures, however, show the correct number of companies or plants, as stated.

A careful analysis of the reports thus filed discloses the following results for 1930 as compared with the previous year:

	1929	1930	<i>Increase or decrease (-) in 1930</i>
Capital invested .....	\$954,052,837	\$991,109,112	3.9%
Number of employes .....	24,058	23,372	-2.9
Compensation paid .....	\$42,533,500	\$42,532,011	...
Total K. W. H. ....	9,071,375.995	9,145,490.931	0.8
Revenue derived from electric light .....	\$96,818,164	\$103,044,791	6.4
Revenue derived from electric heat .....	\$281,937	\$220,623	-21.7
Revenue derived from electric power .....	\$95,168,527	\$93,293,792	-2.0

#### Manufactured Gas Companies

Fifty-eight manufactured gas companies reported during the year, or five less than reported for the same period in 1929. Contrary to the general depression we find in the reports filed a marked increase all along the line, as shown in the following table:

	1929	1930	<i>Increase in 1930</i>
Capital invested .....	\$184,589,117	\$192,420,972	4.2%
Number of consumers .....	863,975	885,621	2.5
Revenue derived .....	\$36,171,019	\$37,267,441	3.0
Number of employes .....	6,214	6,494	4.5
Wages paid .....	\$9,867,497	\$10,527,616	6.7

#### Natural Gas Companies

The natural gas industry established a new high production record in Pennsylvania in 1930 with but a slight increase in number of companies. The average prices at the wells declined during the year, while the capital invested, number of consumers, and revenue derived increased.

Speculation ran rampant in Tioga County when during the first week in September three new wells were discovered whose combined open flow was upwards of 84,000,000 cubic feet per day. The largest well was

struck in Farmington township at a depth of 4085 feet, producing a flow of 40,000,000 cubic feet. Owing to the unusual depth of the well, special equipment was necessary to successfully cap it, during which time it is reported that excitement at Farmington rose to fever pitch, the roar of escaping gas keeping constantly before the minds of landowners the fortune that is under the ground. Thousands of cars parked near the well to watch the workers engaged in the work of stopping the flow, which was estimated at \$72 00 worth of gas per minute escaping from the temporary standpipe.

Open flow production in the Tioga County field is now estimated at 438,650,000 cubic feet per day, making an average production of more than 23,000,000 cubic feet per day per well. Extensive preparations are being made to market this huge output. Right of way has been secured for laying a 14-inch pipe from the gas fields in Tioga County to Williamsport, a distance of 58 miles. Through this pipe line the company expects to supply Williamsport, and from there through lines now in operation service will be extended to Muncy, Montgomery, Milton, Sunbury, Bloomsburg and Danville.

From the 161 companies reporting we present the following summary picture of the industry:

	1929	1930	<i>Increase or decrease (-) in 1930</i>
Capital invested .....	\$140,710,671	\$171,159,463	21.6%
Number of consumers ....	631,684	640,096	1.3
Revenue derived .....	\$57,537,481	\$57,611,646	0.1
Number of employes .....	8,596	8,121	-5.5
Wages paid .....	\$12,390,505	\$11,939,965	-3.6

#### Water Companies

The water companies, not alone in Pennsylvania but throughout the United States, passed through a most serious and troublesome time during the year 1930, due to one of the most damaging droughts in the history of our country. It has been estimated that more than 75 per cent of all the mountain streams, which are the feeders to nearly all our water supply, were dry. Many towns depending on the small water companies were without water or their supply very much restricted, and farmers in many localities were compelled to haul water for their stock many miles. This very unusual condition caused the companies no little amount of trouble and additional expense in the extra precautions necessary in filtration, etc.

	1929	1930	<i>Increase or decrease (-) in 1930</i>
Capital invested—Municipally owned .....	\$178,525,526	\$184,684,660	3.5%
Capital invested—Privately owned .....	\$209,528,886	\$219,420,210	4.7
Number of consumers ....	1,663,757	1,653,833	-0.6
Revenue derived .....	\$39,935,479	\$40,145,588	0.5
Wages paid .....	\$10,109,395	\$9,826,467	-2.8

## PRINCIPAL STEAM RAILROADS

The principal railroads of the State may be grouped into two general classes, those operated by well defined systems and by independent companies.

The principal railroad systems operating in the State are:

	Miles in Pa.
Baltimore & Ohio .....	727.63
Bessemer & Lake Erie .....	223.12
Buffalo, Rochester & Pittsburgh .....	411.96
Central Railroad of New Jersey .....	240.62
Delaware, Lackawanna & Western .....	263.63
Erie .....	654.15
Lehigh Valley .....	570.68
Maryland & Pennsylvania .....	37.40
Monongahela .....	112.99
Mount Jewett, Kinzua & Riterville .....	24.03
New York Central .....	879.80
New York, Ontario & Western .....	72.29
Pennsylvania .....	4,202.56
Pittsburgh & Lake Erie .....	214.80
Pittsburgh, Shawmut & Northern .....	108.23
Reading Company .....	1,371.41
Tionesta Valley .....	51.96
Union .....	222.23
Valley .....	10.41
Western Maryland .....	247.80
Wilkes-Barre & Eastern .....	87.04

These twenty-one companies operate either by lease or ownership of stock, one hundred and eighteen subsidiary companies, whose lines are wholly or mostly in this State. The following table shows the subsidiary companies controlled and the mileage of each subsidiary company in this and adjoining states:

	Miles in Pa.	Miles in other states

**GENERAL STATISTICS OF STEAM RAILROADS SUMMARIZED FROM  
TABULATED STATEMENTS COVERING YEAR 1930 AND  
SHOWING COMPARISON WITH YEAR 1929**

	1929	1930
<b>ASSETS</b>		
Investment in road and equipment .....	\$5,181,076,658	\$5,403,549,518
Investment in stocks, bonds, notes and advances .....	1,860,946,558	1,842,000,446
Other investments .....	350,274,219	390,469,763
Cash and current assets .....	495,370,724	452,837,903
Other assets .....	158,970,600	171,159,444
Total assets .....	\$8,046,638,759	\$8,260,017,074
<b>LIABILITIES</b>		
Capital stock outstanding .....	\$2,376,288,906	\$2,463,365,638
Funded debt .....	2,655,132,863	2,789,420,535
Other long term debt .....	39,134,786	29,532,642
Total amount of other forms of indebtedness, including current liabilities and appropriated surplus .....	1,928,231,753	2,039,256,063
Total liabilities .....	\$6,998,788,308	\$7,321,574,878
<b>MILEAGE</b>		
Main line .....	9,116.51	9,091.21
Branches and spurs .....	7,979.82	7,974.63
Line of proprietary companies .....	3,897.66	3,947.41
Lines operated under lease .....	12,432.31	17,404.87
Lines operated under contract, etc. ....	1,988.09	1,691.30
Lines operated under trackage right .....	2,404.00	2,695.94
Total mileage operated .....	37,819.29	42,805.36
Total number of miles operated in Pennsylvania .....	12,655.87	12,723.72
Miles of new line constructed during the year .....	12.22	24.84
Aggregate length of all tracks, including yard tracks, sidings and spurs .....	86,491.19	96,566.29
<b>EQUIPMENT, PERSONS EMPLOYED AND COMPENSATION</b>		
Number of cars in passenger service .....	17,671	19,096
Number of cars in freight service .....	817,065	896,912
Number of cars in company service .....	25,390	27,790
Total number of cars in service .....	860,126	943,798
Number of locomotives in service .....	18,561	19,722
Number of employes .....	526,052	521,122
Yearly compensation .....	\$891,127,153	\$860,839,369
<b>TRAIN MILEAGE</b>		
Number of miles run by freight trains .....	154,307,631	147,515,879
Number of miles run by passenger trains .....	149,258,331	171,158,378
Number of miles run by mixed and special trains .....	2,512,543	3,137,147
Total number of miles run .....	306,078,505	321,811,404
<b>NUMBER OF PASSENGERS CARRIED</b>		
Number of passengers carried earning revenue .....	308,378,053	288,762,985
<b>KINDS OF FREIGHT CARRIED IN TONS</b>		
Products of agriculture .....	36,893,140	39,309,501
Products of animals .....	11,019,833	11,412,719
Products of mines .....	564,424,475	523,360,767
Products of forests .....	27,056,543	21,186,864
Miscellaneous and L. C. L. goods not distributed above ...	268,661,184	233,057,171

	1929	1930
<b>QUANTITY OF FREIGHT CARRIED</b>		
Number of tons carried of freight earning revenue .....	908,055,175	828,327,022
<b>EARNINGS AND INCOME</b>		
Freight earnings .....	\$1,519,776,133	\$1,389,278,107
Passenger service train earnings .....	445,650,665	415,663,023
Switching and other earnings from operations .....	46,083,551	40,767,384
Total earnings from operations .....	\$2,011,510,349	\$1,845,708,519
Income from other sources, including interest on bonds, dividends on stock, rentals, etc. ....	202,527,309	171,809,891
Total earnings and income .....	\$2,214,037,658	\$2,017,518,410
<b>DISBURSEMENTS</b>		
Maintenance of way and structure .....	\$250,284,786	\$228,098,471
Maintenance of equipment .....	420,999,834	385,368,969
Conducting transportation and traffic .....	759,399,105	739,330,599
General expenses, less transportation for investment .....	58,156,950	63,288,259
Total operating expenses .....	\$1,488,840,675	\$1,416,086,298
Other expenses, as per deductions from income .....	439,329,733	498,067,405
Total expenditures for the year .....	\$1,928,170,408	\$1,914,153,703
Amount of dividends paid during the year .....	156,115,147	164,282,358
Surplus for the year ending Dec. 31st after deducting divi- dends .....	135,004,912	11,821,237
Deficit for the year ending Dec. 31st after deducting divi- dends .....	5,252,809	72,738,888

**STATISTICAL INFORMATION FOR STEAM RAILROADS  
RELATING TO LINES LEASED AND OPERATED  
BY OTHER COMPANIES**

	1929	1930
Capital stock outstanding .....	\$503,545,656	\$503,491,974
